JobMatch™

Automatically match your job postings to job-seeking candidates in the database

MBA Focus is the #1 choice of recruiters seeking top MBA talent. Our exclusive school partnerships form a closed network that delivers only the best in high-potential, high-performing talent. Combined with Global Focus®—our best-in-class recruitment management system—MBA Focus helps recruiters find talent faster and improve overall quality of hire.

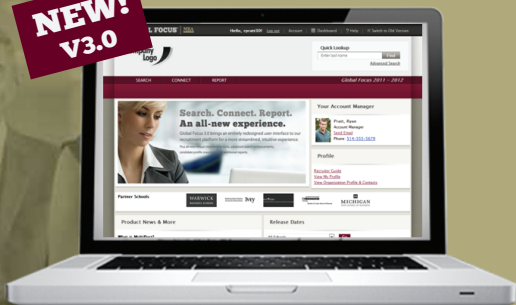

An innovative way to source qualified candidates

JobMatch is an automatic way for employers and candidates to find each other. After an employer posts a job with our exclusive MultiPost job distribution system, the new JobMatch technology performs an advanced search of the comprehensive database and returns a list of candidate profiles and resumes that match the job description from the selection of 70+ schools available.

JobMatch also shows registered candidates a list of jobs that match their profile when they create or update their career profile with new preferences and experiences, making JobMatch the world's most innovative solution for finding elite business leaders to fill your company's talent pipeline.
